

Friends, Clients & Colleagues

What an event filled year Conscious Thought with Katie has had with Colorful Conscious Weddings, and now Videography to go with any of our events to bring you DVD movies. In the near future, we will be offering Audio on CD's.

Volunteer Hours: Littleton Adventist Hospital as a Chaplain Intern; Race with Air for Life as a Children's Games Supervisor and finishing with Dirty Girls Mud Run for Cancer Survivors.

Aaron is 13 years young, and has been a student videographer earning 10% off all editorial sales of movie DVD's made of events he records. He is learning new skills and money management. A busy 8th grader who enjoys basketball, humanities, technology of gadgets and trains. He would like to thank you for your patience and hopes you are enjoying your product of your events that he has filmed for you. Aaron also volunteered his time with Flight for Life this summer.

I would like to thank all the families we/I have served this year and hope to grow our business and ministry into a blossom of wild flowers. Helping all who seek our services while integrating beliefs around the globe.
